EDUCATION

Graduation Faculty of Statistical Studies and Research <i>Master in Computer Science, Minor in Deep Learning and NLP</i>	Cairo, CU Nov 2023
Graduation Faculty of Statistical Studies and Research <i>Post Graduation Diploma in Computer Science</i>	Cairo, CU May 2013
MCIT Scholarship <i>Software Development</i>	Mansoura, Raya Academy Nov 2008
Faculty of Commerce <i>Bachelor of Accounting</i>	Mansoura, MU May 2003

EXPERIENCE

Senior Solutions Architect <i>National Housing Company, NHC</i>	May 2026 – Present Riyadh, KSA
- Design and Develop High available and scalable application using hybrid methods using cloud and On-Perm services. - Developed a REST API using .Net Core and SQL Server to store data from real states management systems - Developed a full-stack web application using .Net Core API, VueJs, SQL Server and Docker to analyze Labor residency data - Create and Enhance Solution Architecture for company systems	
Software Solutions Architect <i>National Housing Company, NHC</i>	June 2020 – May 2026 Riyadh, KSA
- Design and Develop High available and scalable application using hybrid methods using cloud and On-Perm services. - Developed a REST API using .Net Core and SQL Server to store data from real states management systems - Developed a full-stack web application using .Net Core API, VueJs, SQL Server and Docker to analyze Labor residency data - Create and Enhance Solution Architecture for company systems	
Technical Team Lead/Solution Architect <i>Future Face</i>	Oct 2018 – June 2020 Cairo, EG
- Design and Develop solutions for health care industry in KSA - Upgrade some legacy solution to .Net Core - Maintain solution architecture and features	
Technical Team Lead/ Data Scientist <i>AHCC</i>	March 2018 – Sept 2018 Cairo, EG
Developed <i>SAPTCO Haj management System</i>	
Technical Team Lead <i>Starware</i>	July 2016 – March 2018 Cairo, EG
- Developed and Maintain <i>AVL Fleet Management System</i> - Developed a dispatching algorithms for cars and drivers shifts - Contributed in applying CMMI Methodology - Trained new comers and mid level seniors	
Technical Team Lead/ Data Scientist <i>Arabia Inform</i>	Dec 2015 – June 2016 Cairo, EG
- Developed <i>Acumen news Tracing and Analysis System</i> - Developed some prediction models for republic opinion measurement - Trained new comers and mid level seniors	

Senior .Net Developer <i>Ministry of Housing</i>	Dec 2014 – Nov 2015 <i>Riyadh, KSA</i>
Developed <i>HR Work flow and Management System</i>	
Senior .Net/Sharepoint Developer <i>ILead</i>	April 2014 – Dec 2014 <i>Cairo, EG</i>
- Developed <i>AkarMap Reservation System</i> - Developed some Sharepoint Libraries and Components	
Senior .Net Developer <i>NITCO</i>	March 2011 – March 2013 <i>Mansoura, EG</i>
Developed some applications for various business domain	
Senior .Net Developer <i>Egypt Network</i>	Nov 2010 – March 2011 <i>Mansoura, EG</i>
Developed some applications for various business domain	
.Net Developer <i>East Nets</i>	Oct 2008 – Oct 2010 <i>Cairo, EG</i>
Developed some applications for various business domain	
.Net Developer <i>Arena Solutions</i>	Jan 2005 – Dec 2007 <i>Cairo, EG</i>
Developed some applications for various business domain	

PROJECTS

Idle Lands <i>.Net Core, VueJs, SQL Server, Docker</i>	Aug 2021 – Present
- Developed Application to Collect idle lands for price evaluation, calculate taxes, and needed infrastructures to develop those lands - Bower BI reports - Used Redis for distributed cache	
Labor Camps <i>.Net Core, VueJs, SQL Server, Docker, Git</i>	Dec 2020 – July 2021
- Governmental project which aims to collect information about the foreign employees, for analysis and support decision making about new roles about the market and its companies - Implemented continuous delivery using GitLab to build upon new releases	
Acumen <i>.Net Core, Angular, SQL Server, Docker, Git, Gitlab</i>	Dec 2015 – July 2016
Acumen was established to document, archive, and analyze media in the MENA region. Acumen is a leader of electronic content from MENA, having the unrivaled distinction of owning four digitization, documentation, indexing, and archiving centers – media, advertisements, law, and academic.	
AVL <i>.Net Core, Knockoutjs, SQL Server, TFS</i>	Aug 2016 – July 2017
- AVL is a Fleet management and tracking system that allows the client to manage their vehicles, monitoring, and tracking. - Implemented GPS real time tracking service - Implemented Redis for distributed cache	
ILS <i>.Net MVC 5, Knockoutjs, SQL Server, TFS</i>	March 2018 – Sept 2018
- Full management application for SAPTCO company including scheduling, business workflow, tracking, and finance - Implemented Bus Scheduling at Pray times - Implemented financial module
